

Family Feud Virtual Game – Rules

Overview

1. There are 15 kid-friendly questions included in this PowerPoint
2. You will be prompted with a Question Slide, followed by a slide that is meant to give each player 45 seconds to answer
3. The order of the game continues in this format: Question Slide, 45-second Slide, Answer Slide
4. The Question Slide provides a “Hint”, telling players how many answers correspond to the question
5. Answers are listed in order of popularity (according to the internet). Write down as many answers you can think of in 45 seconds but do not pass the “Hint” amount (i.e. if the hint says there is 6 answers, do not write more than 6 guesses). The goal is to guess the # 1 answer in each question.
6. Use a pen and paper to individually write down your answers
7. Once each player has written their guesses, click for the next (Answer) slide to reveal the answers

Flexible & Fun

1. Although there is a 45 second slide, you DO NOT have to follow that. If players need more time, this is okay – play at your own pace!
2. This can be played for fun, without competition. If you choose to keep score:
 - a. 5 points awarded (per question) if your # 1 guess matches the # 1 answer
 - b. 1 point awarded (per question) for any other guess that is included in the answer slide
 - c. If your guesses successfully match the order of the Answer Slide, award the player 10 bonus points

Key Piece

This game is meant to be **FUN**. Play in the way that best suits your household! Enjoy!
